# System Requirements - Release 2022b - Windows

| Operating System          | • Windows 11  
|                          | • Windows 10 (version 20H2 or higher)  
|                          | • Windows Server 2019  
|                          | • Windows Server 2022  
| Processor                | • Minimum: Any Intel or AMD x86-64 processor  
|                          | • Any Intel or AMD x86–64 processor with four logical cores and AVX2 instruction set support  
|                          | **Note:**  
|                          | • A future release of MATLAB will require a processor with AVX2 instruction set support  
| RAM                      | • Minimum: 4 GB  
|                          | • Recommended: 8 GB For Polyspace, 4 GB per core is recommended  
| Storage                  | • 4.0 GB for just MATLAB  
|                          | • 5-8 GB for a typical installation  
|                          | • 31.5 GB for an all products installation  
|                          | • An SSD is strongly recommended  
| Graphics                 | • No specific graphics card is required, but a hardware accelerated graphics card supporting OpenGL 3.3 with 1GB GPU memory is recommended.  
|                          | • GPU acceleration using Parallel Computing Toolbox requires a GPU with a specific range of compute capability. For more information, see [GPU Computing Requirements](https://www.mathworks.com/products/gpu-computing/requirements.html).
